

JD 型彈簧式避震器安裝說明

JD spring isolator installation guide

安裝前，請確認避震器之型號規格是否正確。

Before installation, make sure the model and the specification are correct.

安裝說明

Installation guide

- 所需工具：公制口徑 19mm (M12)、32mm (M22)開口扳手、臨時木台(枕木)、爪式千斤頂。

Required tools: 19mm (M12) and 32mm (M22) open wrenches, wooden panel, and claw jack.

- 可先行放置與避震器高度相同的臨時木台於設備安裝處再安裝設備。(如圖1)

Place the wooden panel with the same height as the mounts on the installation before installing (Fig 1).

- 先將M22調整螺栓降到最低，以方便將避震器置入安裝位置。(如圖2)

Adjust M22 adjustment bolt to the lowest position to install the mounts (Fig 2).

- 依據基礎螺栓固定孔的位置，於安裝位置預埋基礎螺栓。

Embed foundation bolts according to the location of bolt-loaded holes.

- 將避震器放置於與設備的正確安裝位置。(如圖3)

Place the base on the installation location (Fig 3).

型號 Type	尺寸 Dimension (mm)					
	L	W	A	H	ψD	CS
JD-C	145	83	116	154	83	M12
JD-A	145	83	116	164	83	M12

JD 型彈簧式避震器安裝說明 JD spring isolator installation guide

安裝說明

Installation guide

- 將JD型避震器置如安裝位置處，以M12固定螺栓將避震器與基座固定，但不鎖緊。(如圖4)

Place JD mounts to its location and fasten it on the base with M12 fixed bolts without locking it (Fig 4).

- 以公制口徑32mm開口扳手以逆時針方向調整M22調整螺栓，使彈簧受力下壓、基座上升；當壓塊可取出時即可停止調整，並將壓塊取出。(如圖5)

Adjust M22 adjustment bolt in the anti-clockwise direction with 32mm open wrench to press down the spring and to raise the base. Adjustment can be stopped once you can take out the briquetting (see Fig 5).

- 調整JD型避震器時需依序均勻調整各個避震器，勿一次調整以保持基座水平。

Adjust JD mounts in order and evenly while adjusting JC mounts to remain the balance of the base.

- 避震器未完成調整前，壓塊切勿強行取出。

Before completing the adjustment of the mounts, do not force to take out the briquetting.

- 調整完成後將M12固定螺栓確實與避震器完全鎖緊，即可完成避震器安裝調整。(如圖6)

After the adjustment, lock the mounts with M12 fixed bolt (Fig 6).

- 安裝後請檢查彈簧之下壓量，如彈簧壓實表示荷重不足無避震效果。應予更換較大荷重之規格，並請洽本公司業務人員。

After the adjustment, check the press amount of the spring. If it appears with insufficient loading, please replace with bigger loading by contacting our staff.

- 安裝時，請注意安全。

Be cautious during the installation.

※保養點檢項目：每月觀察固定螺栓&基礎螺栓保持鎖固、保持避震器安裝狀態&彈簧下壓撓度正常。

Maintenance checking points: Check the mounting bolts, remain fixed bolt locked, installation of the isolator, and the deflection of the spring.
